Way Interferes With the Big Trust. CHICAGO, May 10 .- A Chicago firm, it is said, has just completed an important combination to be named the American Steel Founders' Company. The concern is to have a capital of \$40,000,000, divided equally between common and preferred certificates. The latter will be underwritten at par, and for every 100 shares of the preferred stock there will be given as

a bonus 100 shares of common stock. The concerns composing the American Steel Founders' Company are: American Casting Company and the Sargent Company Chicago; Light & Howard, St. Louis; Franklin and the Reliance companies, Pennsylvania and American Castings Company, New ark, N. J.

E. H. Gary and Charles H. Schwab of the United States Steel Corporation and Gen. Miller are said to be interested in the matter. They have given the enterprise a helping hand from its incipiency. All are largely interested in the big trust. The new deal will in no way interfere with or antagonize the big steel corporation.

Harris, Gates & Co. of Chicago and New York are credited with having undertaken the financial part of the project. The firm is said to have guaranteed all of the underwriting. Among the underwriters on this house's list are Charles H. Schwab, E. H. Gary, Gen. Miller, Frank Sturgis of Strong, Sturgis & Co. and other Wall Street men.

FORT PLAIN, N. Y., May 10 .- Right on the heels of normal seasonable weather came a cold snap last night that has caused incalculable damage to farmers in this part of the Mohawk Valley. This morning the thermometers registered from 5 to 10 degrees above zero. Muddy highways were grees above zero. Muddy nighways were frozen so thoroughly that they would sustain horses and heavily loaded vehicles. In the suburbs of Albany ice a quarter of an inch thick formed on the ponds. In the country half-inch ice formed. Strawberries, early vegetables and fruit trees were damaged. Fruit growers in the Hudson Valley express great alarm. Up north it was the coldest May night in the memory of most of the people. This morning at Elizabethtown the mercury stood at 18. GERMANS AND JAPS IN A FIGHT. Several German Soldiers Killed in an

Engagement in China. VICTORIA, B. C., May 10.-The Japan Herald, brought by the steamer Tartar. which arrived to-day, publishes details of a collision between Japanese and German soldiers in China. Sergt. Myazaki with two private soldiers was going in the direction of Shan Hai Kwen to replace the garrison there, when he met a party of about ten German soldiers with a Japanese sun flag. The Japanese determined to re-cover the flag by force, whereupon the Germans quietly handed it over to them. The Japanese thanked the Germans for this courtesy, but no sooner had they turned their backs than the Germans attacked them with drawn swords. Sergt. Myazaki accepted the challenge, and, assisted by

his subordinates, had a hot engagement with the Germans, several of whom were

killed and the others put to flight. The matter, it is feared, may become a grave international question.

The hold was filled with dense smoke and the imprisoned men were almost suffocated while they labored to dig their way out of the trap aided by a rescuing party from the wharf. The cargo was shifted and when the men reached the deck they were exhausted. Isaac Compau, the fireman of the steamer, blinded by the smoke, was unable to find his way out of the cabin and he was burned to death. The steamer was valued at \$15,000 and was insured for \$6,000

The unconscious man was carried upstairs and thrown in the vacant room and, so far as known, no effort was made to revive him or to call medical assistance. Cleary says he didn't think his friend was badly hurt, so he went home. The next morning he dropped into the saloon to inquire for McConnell and found the police in charge of his dead body. He and Pete Stanton, the bartender, were arrested as witnesses.

Girardo, who is charged with the killing, could not be found, though the detectives of the Fulton street station searched for him all day. Dr. Hartung, the Coronor's physician, found a bad fracture of the skull, and he thinks that death quickly followed the blow.
